ANV USA PROFESSIONAL LINES

ANV Professional Lines offer a broad range of financial lines products including management liability, fiduciary liability and employment practices liability for the US Market.

No market in the world can match the size and scale of the US market for both revenues as well as risks. The legal environment within the US market makes the cost of defending against what can be a continuing flow of claims nearly equal to (if not greater than) the costs of the claims themselves. Risks are assured and coverage is essential for any firm doing business within the US market.

Stay a Step Ahead.

COVERAGES

- Private Company Directors and Officers Liability, both Primary and Excess
- Non-Profit Organization Directors and Officers Liability, both Primary and Excess
- Public Company Directors and Officers Liability, both Primary and Excess
- Employment Practices Liability Insurance, both combined with D&O/FID or stand-alone basis
- Fiduciary Liability Insurance, both combined with D&O/EPL or stand-alone basis

RISK APPETITE

- Private and Non-Profit entities under \$500 million in assets preferred but larger considered
- Will entertain risks that fall outside the standard market appetites or require specific solutions and attention
- Prefer Primary Employment Practice Risks with under 500 employees but will consider larger
- Will entertain larger D&O and Employment Practices risks for Excess attachments
- Prefer Fiduciary Liability risks where we also write the D&O but will consider on a stand alone basis
- Prefer Excess attachments for Publicly held D&O risks but will consider non-standard primary risks where appropriate underwriting terms and conditions can provide acceptable solutions

CAPACITY

- \$5 million for Non-Profits and Private Companies
- \$10 million for targeted Public Companies

HOW ANV IS DIFFERENT

Operating as an MGU, the team is backed by both the capital, underwriting insight and services support of AmTrust Financial Services Group. A key area of focus for the team is to provide underwriting solutions for risks where standard models cannot be easily applied and a more hands-on and solution-oriented underwriting approach is needed.

ANV's financial lines portfolio is based around risk selectivity with strong oversight and internal accountability. Our approach focuses on due diligence and analysis in order to continue to provide a solid underwriting platform providing valued and sustainable results for all stakeholders.

Across all ANV professional lines, our goal is to be engaged, collaborative and committed underwriters to both these unique lines of business as well as the brokers and insureds who rely upon them. We look to earn the trust and support each day from our partners by providing effective risk solutions and superior service at fair prices. Company executives and risk managers operate in an economic and legal climate in an ever-changing world, where they face industry consolidation (mergers & acquisitions); ever increasing regulation, solvency capital demands; corporate governance challenges; shareholder activism; emerging risks; and the necessity to embrace, and manage, technology and social media. Demand for individual insurance solutions designed to address these exposures has never been greater and ANV aims to become the insurance partner of choice. ANV Global Services is part of the AmTrust Financial Services Group, a multinational insurance holding company headquartered in New York City. With extensive underwriting experience and a prestigious "A-" (Excellent) Financial Size XIV rating from A. M. Best. AmTrust has a reputation as an innovative, technology-driven insurance company. AmTrust's commitment to excellence is the common thread connecting each of the company's businesses.

For more information about AmTrust visit www.amtrustgroup.com.

The team is focused on Management Liability with a specific emphasis on primary and follow-form excess liability D&O for, private, non-profit and select public entities. In addition to this work, the team underwrites stand alone and combined form employment practices liability insurance and fiduciary liability.
